Gage:

Included

Special Features:

Measures dissolved oxygen concentration and percentage, temp, conductivity, salinity, specific conductance, medium depth, ph, oxidation reduction potential, total dissolved solids, and level; 25 foot cable option; 4 c-cell batteries required; downloadable to a pc via rs-232; designed for reliable field use; water proof ip-67 impact resistant case; flash-memory stores 150 data sets

Functional Description:

Intended to quickly sample fresh, brackish, sea and polluted water for 11 parameters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-c
