End Application:

Watermist pump skid

Product Name:

Pressure switch

Special Features:

Although spx p/n swa-18029-00 is a pressure switch assembly it actually consists of the in-line flange which is to be drilled/tapped to receive a pressure transducer, it was identified as an assembly given that the pressure measuring unit (be it switch or transducer) had to be installed in the line using the specially drilled flange. Swa-18029-00 consists of: flange and pressure transducer which is: spx p/n: 352-07252-01 desc: transducer, 0-60 psig, pressure operated, c/w pressure snubber mfgr: omega engineering inc. Mfgr p/n: px482ad-060gi (transducer) ps-8e (snubber)

Shelf Life:

N/a
