Product Name:

Force transducer

Special Features:

Excitation 26 vrms, 400 hz; input power 0.120 amp ma (each sensor) ; output load 75 k ohms; sensitivy 0.002008 v/v/lbs; temp operating -67 degrees f to +160 degrees f; dielectric strength 750 vms, 60 hz, 1 min. Between winding and case; phase shift +/- 15 degrees maximum w/+/-30 lb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
