End Application:

2320-01-543-0651, truck, wrecker 22.5 ton 10x10 (lvsr)

Product Name:

Angle sensor

Special Features:

Nha inner boom; cable length 2 ft of epwb 7108 8 conductor; cable termination epcn 978-8 pin connector; has stub termination; canbus bit rate 250kbits; transmit process data object 25 milliseconds; receive process data object disable in 1000 milliseconds and enable safe time 250 milliseconds; heartbeat protocol repeat rate 250 milliseconds; initialize and calibrate using linux computer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T145-b
