Width:

68.0 millimeters

Length:

122.0 millimeters

End Application:

A/v equipment

Drive Type:

External and integral

Camera Type:

High speed and special purpose

Single Frame Release:

Included

Drive Motor Voltage Rating:

24.0 alternating current and 12.0 direct current

Product Name:

C/cs mount camera

Special Features:

Lg electronics; signal system pal; lens-c/cs mount; signal process lg xdi dsp; sync system internal/external (line lock); total/effective pixels 470k; image device 1/3inch interline color ccd; resolution 570 tv lines; 700 tv lines b/w; s/n ration more than 52db-agc off; video output signal 1vp-p composit 75 ohm

Height:

61.5 millimeters

Style Designator:

Camera body, motion picture

Supplementary Features:

Day and night icr d&n; wdr 60db; common 3d-dnr; auto balance; motion detection 4 areas; privacy zone masking 8 zones; osd display 7 languages; digital zoom x8 built in pan/tilt; hsblc-o; weight 420g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31400
