Camera Type:

General purpose

Lens Aperture Setting Range:

+0.0/+1.4

Shutter Type:

Adjustable focal plane

Film Accommodation Type:

Roll film

Film Width:

35.0 millimeters

Lens Focal Length:

50.000 millimeters

Special Features:

Meter finder system, chrome body

Reference Number Differentiating Characteristics:

As differentiated by meter finder system and chrome body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31400
