**Special Features:**

Video circuits input: input level 0.5 to 2.0 volts p-p, sync negative or positive; 10 pin multi connector for rgb sync and remote brightness and contrast; frequency response: 30 mhz bandwidth p or m 3 db; gain: min video gain 40db or 100x and maximum video output 120 volts p-p drive; frequency range: automatically locks from 45 hz to 100 hz on vertical deflection; mounting: can be mounted on its optional yoke or on casted cart for portable applications; ecp20ed cart for portable applications; ecp2000 color data/graphics projection system model 38-b05401-75, single lens color projection monitor with optical focus adjustment for screens 5 ft. To 14 ft diagonal screen size

**Reference Data And Literature:**

Electrohome/ecp 2000

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
