**Overall Length:**

15.300 inches

**Overall Height:**

6.000 inches

**Overall Width:**

1.700 inches

**Wattage Rating:**

255.000 watts

**Voltage In Volts And Current Type:**

240.0 ac

**General Description:**

3 x 1.3 in. Polysilicon tft lcds with dichroic optical system for enhanced color accuracy and saturation; true 1024 x 768 xga with intelligent compression up to 1280 x 1024 sxga, and resizing for svga nad vga computer images; computer compatibilty pa and macintosh compatible including 1024 x 768 laptops, compatible with hp and sgi workstation with 15-pin video connections

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
