Overall Length:

12.200 inches

Overall Height:

6.300 inches

Overall Width:

16.500 inches

End Application:

Icp spares processor

Wattage Rating:

430.000 watts

Criticality Code Justification:

Feat

Voltage In Volts And Current Type:

100.0 ac

Special Features:

A part, assembly, or system identified as essential to weapon system performance or operation to preserve life and safety of personnel; weight, 17 pounds; aspect ratio, 4: (xga); lumens, 3500; contrast ratio, 750: 1; light source, uhb lamp(275w) ; light source life, 2000 hours;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
