Fire Retarding Characteristic:

Fire retarding

Mounting Type:

Ceiling and wall

Overall Length:

250.000 inches

Overall Height:

180.000 inches

Overall Width:

240.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Surface Finish:

Matte white

Prime Mover Type:

Electric motor

Border Color:

Black

Installation Design:

Fixed

Voltage Rating:

120.0 volts

Foldability:

Nonfoldable

Product Name:

Projection screen-square format

Special Features:

2.4a motor mtd inside 7 in diameter rigid metal roller, three wire w/grd, quick reversal type, oiled for life, w/automatic thermal overload cutout, integral gears, capacitor and electric brake

Material:

Fiberglass

Material:

Glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-e
