Overall Length:

25.500 inches

Overall Height:

13.334 inches

Overall Width:

10.000 inches

Current Type:

Ac

Frequency Rating:

50.0 hertz and 60.0 hertz

Housing Material:

Plastic

Drive Type:

Roller

Loading Characteristic:

Darkroom

Accommodated Film Length:

6.000 feet

Installation Design:

Portable

Processing Tank Material:

Plastic

Paper Width Accommodated:

14.000 inches

Drier:

Not included

Processing Time:

5.750 feet per minute paper

Processing Tank Quantity:

34

Voltage In Volts:

115.0

Phase:

Single

Special Features:

Nloading data, handfeed type; processing tank data ea, 2 qt capacity; accessories, 50 hz drive gear; 41.5 lb net wt; no special features; govt type data jptds, processing machine, photographic paper, type no.Eg-91a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T150-c
