Overall Length:

97.250 inches

Overall Height:

58.500 inches

Overall Width:

26.000 inches

Specific Use:

Film processing machine

Housing Material:

Steel

Drive Type:

Roll

Reproduction Type:

Negative or reversal

Loading Characteristic:

Daylight

Usage Design:

Film or print

Installation Design:

Nonportable

Film Accommodation Type:

Roll and sheet and cut sheet

Heating Element Type:

Thermostatically

Film Size Accommodated:

All sizes and 8 x 10 in.

Processing Tank Material:

Steel, stainless

Temperature Controlled Feature:

Included

Loading Type:

Hanger or rack

Drier:

Not included

Heating Element Quantity:

1

Processing Tank Quantity:

9

Nesting Feature:

Not included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T150-c
