Overall Length:

48.250 inches

Overall Height:

47.500 inches

Overall Width:

18.500 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Accommodated Film Width:

16.0 inches

Voltage Rating:

Between 110.0 volts and 120.0 volts

Operation Method:

Electrical

Reel Quantity:

2

Maximum Capacity:

2000.000 feet

Phase:

Single

Special Features:

Metal housing; enameled finish; 2 spindles; w/footage indicator; w/automatic stop-switch; floor mtg w/casters; feature manual operated notch-by-pass to permit passage of notched film u/o stopping machine w/metal cabinet and legs; govt type janaf inspecting machine, motion picture film type fm-106a

Specification Or Standard:

Fm-106a type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T150-h
