Overall Length:

16.625 inches

Overall Height:

13.000 inches

Overall Width:

24.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Drive Type:

Chain or roller

Operation Method:

Electrical

Paper Width Accommodated:

14.000 inches

Loading Type:

Feed on assembly or spool

Voltage In Volts:

110.0

Special Features:

Continuous single or double wt prints; fed through water vapor; govt type jptds, straightener photographic pri-t, type fm-105/4/

Specification Or Standard:

B style and 1 size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-c
