Overall Length:
7.625 inches
Overall Width:
5.250 inches
Usage Design:
Any acceptable
Err Default:
Err default
Special Features:
Light source, dual-color electroluminescent; blue 455 nm porm 10nm; green 520 nm porm 10nm; repeatability, porm 0.04 d log exposure
from unit to unit; stability, porm 0.02 d log exposureper year at 10 degrees to 45 degrees c; exposure area, 21 steps, each 5mm x 10mm;
power, two 9v alkaline translator batteries; optional ac power converter; wt, 2.5 lbs; two second delay to prevent double exposures
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T134-c
