Width:

16.0 millimeters

Thickness:

0.00825 inches

Length:

1000.0 feet

Material Transparency:

Opaque

Winding Device Type:

Core

Controlling Agency:

Eastman kodak

Identifying Number:

7981 type no.

Stock Type:

Machine

Extra Long Reference Number:

Black and white opaque leader 7981

Special Features:

Unperforated, wound in accordance with eastman kodak specification lo635

Color:

Black and white

Reference Number Differentiating Characteristics:

As differentiated by width, winding device type, special features, and extra long reference number

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-a
