Width:

16.0 millimeters

Thickness:

0.006 inches

Length:

5.0 inches

Material Transparency:

Transparent

Perforation Identification Designator:

Unperforated

Stock Type:

Machine

Special Features:

Hard rubber mount attached to one end by which mechanism for turning the film in the magazine is attached

Color:

Clear

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-a
