**Width:**

16.0 millimeters

**Thickness:**

0.00825 inches

**Length:**

1000.0 feet

**Material Transparency:**

Opaque

**Winding Device Type:**

Core

**Perforation Identification Designator:**

Ansi ph22.109

**Controlling Agency:**

Kodak

**Identifying Number:**

7981 type no.

**Stock Type:**

Machine

**Special Features:**

Wound jaw kodak specification lo-458, two 1000 ft rolls unit qty, can

**Color:**

Black and white

**Reference Number Differentiating Characteristics:**

As differentiated by length, perforation identification designator, and winding device type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T150-a
