**Width:**

16.0 millimeters

**Thickness:**

0.006 inches

**Length:**

100.0 feet

**Material Transparency:**

Opaque

**Winding Device Type:**

Spool

**Perforation Identification Designator:**

Ansi ph22.109

**Stock Type:**

Machine

**Special Features:**

B wind in accordance with kodak specification w1621

**Color:**

White

**Reference Number Differentiating Characteristics:**

As differentiated by length, perforation identification designator, and winding device type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T150-a
