Width:

16.0 millimeters

Thickness:

0.006 inches

Length:

100.0 feet

Material Transparency:

Opaque

Winding Device Type:

Spool

Perforation Identification Designator:

Ansi ph22.109

Stock Type:

Machine

Special Features:

B wind in accordance with kodak specification w1621

Color:

White

Reference Number Differentiating Characteristics:

As differentiated by length, perforation identification designator, and winding device type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-a
