Reproduction Type:

Color

Quantity Within Each Unit Package:

1.2 liters

Material Type For Which Designed:

Paper

Product Name:

Kodak ektacolor ra developer starter

Special Features:

Composition information on ingredients 75-80 water, 007732-18-5, 231-791-2; 15-20 potassium bicarbonate, 000298-14-6, 206-059-0; 5-10 potassium chloride, 007447-40-7, 231-211-8

Supplementary Features:

Functional description professional colour paper photographic processing solution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24700
