Case Material:

Aluminum alloy

Case Surface Treatment:

Paint

Operating Temperature Range:

-65.0/+160.0 degrees fahrenheit

Maximum Voltage Rating In Volts:

28.0 dc

Inclosure Type:

Encased

Terminal Location:

Back

Power Source:

External

Mounting Method:

Flange

Features Provided:

Warning indicator

Terminal Type And Quantity:

5 solder stud

Maximumlength:

6.000 inches

Maximumwidth:

2.375 inches

Maximumheight:

2.375 inches

Intelligence Data Handling Capability:

Shutter speed transmitting automatic

Indication Method:

Transmitting dial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
