Overall Length:

20.000 inches

Overall Height:

9.000 inches

Overall Width:

8.750 inches

Environmental Protection:

General purpose

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Connection Type And Location:

Receptacle, power front

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
