General Description:

Calibrated, mounted between 0.500 in. Glass and 0.003 in. Acetate, 5.500 in. Lg by 1 in. W with an effective area of 4.125 in. Lg by 1 in. W, 21 steps, 5 mm step width, approximately 0.05 to 3.05 density range, 0.15 density increment

Reference Number Differentiating Characteristics:

As differentiated by text requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
