End Application:

Camera, still picture ka-93b

General Description:

Econsists of circuit card assembly 3, board and component assembly 1, connector 3, resistor 14, capacitor 1, semiconductor 16, chassis torque motor amplifier 1, transistor 4, chassis and terminal assembly 1

Fsc Application Data:

Film magazine type la-487b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
