Overall Length:

6.125 inches

Overall Height:

10.250 inches

Overall Width:

6.437 inches

End Application:

6530-01-147-9531

Product Name:

Program board assembly 6.125in lg 6.437 in wide 10.25in height

Special Features:

Ocaptive screw positioned on top center of power supply which is attached to mother board w/chassis assembly; major components and quantity (1) printed wiring board; (3) 50 pin circuit card electrical connectors; (6) 20 pin electrical plug connectors; (1) welded chassis; (3) tab locking id; mounting method: base; cubic measure: 0.242 cu. Ft.; purchase description identification: 02964-p-760244-004; reference data and literature: american sterilizer company drwg no.760244

Unpackaged Unit Weight:

9.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
