Filter Aperture Length:

77.0 millimeters

Filter Aperture Width:

62.0 millimeters

End Application:

Mlu-f16 aircraft test set

Lens Barrel Diameter For Which Designed:

75.0 millimeters

Filter Thickness Accommodated:

0.1 millimeters

Product Name:

Wraten filter frame

Special Features:

2 piece black anodized aluminum open frame design 77 x 77 x 3 mm; 62 mmclear aperture

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T150-h
