Overall Length:

15.000 inches

Overall Height:

5.250 inches

Overall Width:

10.250 inches

Current Type:

Ac

Frequency Rating:

50.0 hertz

Voltage Rating:

200.0 pounds per hour dry and 240.0 pounds per hour with retaining chain

Operation Method:

Any acceptable

Unit Type:

Any acceptable

Light Type For Which Designed:

Built-in source

Product Name:

Transmission densitometer

Special Features:

Designed to measure all silver-based films

Type/model Designation:

301

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T150-d
