Physical Form:

Crystal

Quantity Within Each Unit Package:

170.000 grams

Sieve Particle Size Gradation Percentage:

Any acceptable

Product Name:

Cupric sulfate acs crystal 170 grams

Special Features:

Special reagent, accurately weighed; for measuring specific gravities of whole blood and plasma and for screening blood donors; loss on drying at 300-350 degrees c not less than 36.0 and not more than 36.14 pct

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10800
