Unit Package Quantity:

1 can or plastic bottle

Quantity Within Each Unit Package:

1.0 gallons

Specific Gravity Value:

Between 40.500 and 42.500

Formulation Designation:

Liquid special

Viscosity In Centipoises At Reference Temp:

85 to 550 centipoises at 25 degrees c

Special Features:

Liquid sodium silicate solution as typically used in the formulation of alkaline soap and detergent compositions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T093-a
