**Unit Package Quantity:**

1 bottle

**Quantity Within Each Unit Package:**

1.0 quarts

**Solute Designation:**

Manganous sulfate

**Solute Grade:**

Analyzed reagent

**Solute Percentage:**

48.000 by weight manganous sulfate single solute

**Solvent Designation:**

Water, distilled

**Special Features:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Specification Data:**

03950-8723-0029 government standard

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T093-a
