Special Features:

Cullex ch-1 ion exchange resin; used in culligan water softeners; solid spherical beads; benzene diethenyl polymer w/ethenylbenzene sulfonated sodium salts; odorless; freezing pt 32 degrees f; insoluable in water; 1.3 specific gravity; vapor pressure 17 mm/hg; may cause eye or skin irritation; not considered hazardous waste

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T093-c
