Physical Form:

Powder

Quantity Within Each Unit Package:

2.500 kilograms

Special Handling Feature:

Corrosive and oxidizing agent

Product Name:

Calcium hypochlorite powder purified

Special Features:

Strong oxidizer; water reactive; used for laboratory/research purposes; store in a tightly closed container, in a cool, dry, ventilated area

Supplementary Features:

Soluble in water; reacts, releasing chlorine gas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
