**Physical Form:**

Powder

**Quantity Within Each Unit Package:**

2.500 kilograms

**Special Handling Feature:**

Corrosive and oxidizing agent

**Product Name:**

Calcium hypochlorite powder purified

**Special Features:**

Strong oxidizer; water reactive; used for laboratory/research purposes; store in a tightly closed container, in a cool, dry, ventilated area

**Supplementary Features:**

Soluble in water; reacts, releasing chlorine gas

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A10800
