Physical Form:

Crystal

Quantity Within Each Unit Package:

100.000 grams

Minimum Flash Point:

13.0 degrees celsius

Storage Type:

General purpose warehouse

Special Handling Feature:

Flammable

Specific Gravity Value:

0.110

Substance/water Temperature At Specificationific Gravity Ratio:

105.0 degrees celsius

Product Name:

Ninhydrin crystals 100 g jar

Special Features:

Sensitivity to amino acids; color pons test solubility in water; clear and complete loss on drying at 105 degrees celsius

Color:

Yellow

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
