Physical Form:

Powder

Protective Storage Feature:

Requires controlled room temperature storage between 15 to 30 degrees celsius

Product Name:

Bariver 4 method barium reagent powder pillows 100s

Special Features:

Barium reagent, bariver 4, method: turbidimetric range up to 4 per pkg-100 mg/l pk/100 powder pillows

Supplementary Features:

Contains sodium sulfate, toxic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
