Physical Form:

Powder

Quantity Within Each Unit Package:

1.000 kilograms

Sieve Particle Size Gradation Percentage:

5.0 retained 44 microns

Composition And Percentage:

100.0 by volume aluminum oxide

Storage Type:

Keep container tightly closed in a dry and well-ventilated place-light sensitive

Special Features:

Insoluble in water-may be harmful if ingested, inhaled or contact with skin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
