Physical Form:

Pellet or liquid

Special Handling Feature:

Flammable and poisonous

Product Name:

Lab reagent assay; molecular testing cartridge

Special Features:

Contains 9 parts-5 are beads which are freeze-dried white powder and are contained in cartridges; 4 components are reagents that are liquid, clear, colorless and dangerous; binding reagent-ethanol; lysis reagent-guanidine thiocyanate; wash and elution reagent-sodium azide (carcinogenic); beads contain hepes acid and salt eu risk r36/37/38; bovine serum albumin r42

Color:

Clear

Supplementary Features:

Eu risk phrases-binding reagent r11 highly flammable r20/21/22 and r36/37/38 and s16; 24/25; lysis reagent-r52/53 and s61 harmful to aquatic environment; wash/elution reagent r32 and 552/53 and s61 contact with acid liberates very toxic gas; transportation class 3, packing group ii; un1993; proper shipping name-flammable liquid n.O.S. (contains ethanol)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10800
