Physical Form:

Liquid

Quantity Within Each Unit Package:

500.000 milliliters

Composition And Percentage:

99.7 by volume isopropyl alcohol and 0.6 by volume potassium hydroxide

Product Name:

Potassium hydroxide solution (0.1n in isopropanol)

Special Features:

No odor; vapor pressure 33mm hg @ 20 degrees c; vapor denis type 2.1; evaporation rate 2.8; boiling point 82.8 degrees c; freezing/melting point minus 88.9 degrees c

Color:

Clear

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
