End Application:

Biochemical ligand

Product Name:

Retinoic acid powder-500mg

Level Of Dermal Irritation Potential:

Moderate

Special Features:

Cas number-302-79-4; hazard code-xn; risk statements-22; rtecs vh6475000pbchem substance id-2478674; safety datasheet ec no.1907/2006; acute toxicity; chronic aquatic toxicity; harmful if swallowed; conditions to avoid-light; materials to avoid-oxidizing agents; hazardous decomposition products formed under fire condition-carbon oxides

Hazardous Material Classification Code:

Warning; h302 and h411; symbol-xn hazard symbol

Color:

Yellow

Supplementary Features:

Transport info-adr/rid-not dangerous; imdg-not dangerous; iata-not dangerous; contact professional waste disposal service to dispose of this material; mix with a combustible solvent and burn in a chemical incinerator equipped with afterburner and scrubber

General Description:

Retinoic acid primes embryonic stem cells to become neurons

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
