Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Minimum Flash Point:

100.4 degrees fahrenheit

Specific Gravity Value:

0.972

Product Name:

2.4 pentanediane

Special Features:

A acetyl acetone product with a mild odor; molecular weight 100.12; boiling point 136 degrees c to 140.4 degrees c; vapor pressure 2.96 mmhg; vapor densi type 3.5g/l; autoignition teperature 350 degrees c

Color:

Clear

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
