Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Minimum Flash Point:

145.0 degrees fahrenheit

Product Name:

Dimethylaniline

Special Features:

Pale yellow, oily combustible liquid; ingredients n, n dimethylaniline less than 99 percent, n-methylaniline 0.45 percent, aniline 0.05 percent; autoignition temp 698 degrees f; lower explosive limit 1 percent; odor amine like; boiling point 19.5 to 194.5 degrees c; freezing/melting point 2.1 degrees c; vapor densi type 4.2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
