Physical Form:

Liquid

Quantity Within Each Unit Package:

1.0 gallons

Special Handling Feature:

Corrosive and poisonous

Specific Gravity Value:

0.904

Product Name:

Ammonium hydroxide, technical

Special Features:

Poisonous and corrosive, liquid causes burns, vapor is extremely irritating; composition: 19.00% to 21.00% ammonium hydroxide;

Color:

Clear

Hazardous Substances:

Ammonium hydroxide

Supplementary Features:

This bulk qty not gallon.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
