Composition And Percentage:

95.0 by volume oxygen and 5.0 by volume carbon dioxide

Supplied Amount:

20.000 cubic feet

Supplied Cylinder:

Supply item

Product Name:

Carbon dioxide-oxygen 150gl 566ltr iters

Special Features:

Disposable; for calibration standard; 150 gal (566 liters), sz e cylinder

Supplementary Features:

D-day item for dod

Fsc Application Data:

Blood gas apparatus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T09100
