Physical Form:

Gas

Special Features:

Icc designation no. 3aa6000; 99.5percent assay as nitrogen, attachment 1 with quality requirements is required, normal fill 494 cubic feet, rated capacity, per federal spec. Bb-n411c, dated 3 jan 1970 type i. Compressed gas: nitrogen water pumped 6000 psi max. W.P., 32 in. Outside dia., 50 in. Nasa owned cylinder, color coded per military standard 101b dated 3 dec 1970, top-a-gray, band-b-black, body-gray, band-c-black; valve data: valve no. Cga667 as differentiated by size requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T09100
