High purity; for use with o2n2 plant purity analyzers

**General Description:** 

Physical form, gas; water pumped; 99.998 pct min by volume nitrogen; 231.000 cf supplied amount; unit package type, cylinder; 3aa2265; supply item

**Specification Or Standard:** 

I type

Shelf Life:

N/a

**Unit Of Measure:** 

--

**Demilitarization:** 

No
