Physical Form:

Liquid

Composition And Percentage:

99.0 by weight monobromotrifluoromethane

Supplied Amount:

1800.000 pounds

Supplied Cylinder:

Supply item

Special Features:

19.3 pct maximum non-condensable (fixed) gases in the vapor phase of filled cylinder at 70 degrees f when filled to a fill density of 70 lb per cubic foot of cylinder volume; reclaimed material only

Specification Or Standard:

I type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T09100
