## **Product Name:**

Nitrogen gas research purity level maximum operating pressure2490psi

## **General Description:**

Nitrogen compressed gas cylinder; research purity level (99.9999 %); tank size: 1a (255 cu.Ft.); dimensions are 9 in .Dia. By 51 in. High; operating pressure is 2490 psi

Shelf Life:

N/a

**Unit Of Measure:** 

--

Demilitarization:

No
