Product Name:

Nitrogen gas research purity level maximum operating pressure 2490psi

General Description:

Nitrogen compressed gas cylinder; research purity level (99.9999 %); tank size: 1a (255 cu.Ft.); dimensions are 9 in .Dia. By 51 in. High; operating pressure is 2490 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
