Product Name:

Natural gas

Level Of Dermal Irritation Potential:

Slight

Special Features:

Appearance: colorless; state: compressed gas; odor: slight hydrocarbon; vapor density: 0.50; slightly soluble in water; percent volatile: 100.00%; extremely flammable; flash point: -299.00 deg. F.; avoid contact with acids, aluminum chloride, chlorine, chlorine dioxide, halogens, and oxidizing agents; hazardous polymerization will not occur;

Supplementary Features:

Natural gas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
